1. What are the most challenging aspect of the coursework task?
   - Understanding Ceaser Cipher: The concept of Ceaser Cipher was new to me. As I had never known or heard about it.

   - File handling: The most challenging aspect of the coursework was working with the read and write aspect of the assignment. It was quite difficult implementing the things that we learned throughout the previous week. While I was able to run the code the "TypeError: unsupported operand type(s) for /: 'str' and 'int" error was always present.

2. How did you go about completing the task?
   - I visited different website about Ceaser Cipher. And asked my senior about the advice regarding my code. I research about file handling and the error about str + int.

3. What have you learned over the course of completing this coursework task?
   - I was able to improve my python skill and enhance my skill in file handling. I was able to know and learn about classic encrypting algorithm, and learned about the importance of encrypting. I improved my problem-solving skills
